TEAM SPIRIT

Ours is a 150-strong team made of people capable of working under pressure with calm efficiency and responsiveness, with meticulous attention to detail and focus on absolute safety. We are accustomed to dealing with customers used to the highest standards of comfort and safety. The team works around the clock and our services are available without interruption every day of the year.

- Our pilots are highly skilled experts in their field. Recruited from the elite of military and commercial aviation and trained according to the company's stringent flight control procedures and civil aviation regulations, they are able to fly under the most challenging conditions.
- Our flight attendants have proven their integrity time and time again. They are the very essence of discretion and they fully dedicate themselves to your on-board comfort and safety.
- Our in-house CAMO team (Continuing Airworthiness Management Organisation) is composed of highly qualified engineers who relentlessly work at ensuring that maintenance on our fleet is performed in full compliance with manufacturers' requirements only by manufacturer-approved service centres, and that applicable safety regulations are always met.
- Our in-house Flight Operations Service is a dedicated and proactive team of highly skilled dispatchers who work at planning and preparing our customers' flights. Their vast worldwide experience combined with our ultra-long range fleet and intercontinental activities enable us to fly you in any remote area of the world and as close as possible to your final destination.
- Our Customer Service team is made of people trained in hospitality professions, who have an excellent understanding of the business aviation domain. They work at fulfilling all of your logistics requirements as well as ensuring your utter comfort throughout the journey.

AIRCRAFT MANAGEMENT

Albinati Aeronautics is a dependable partner for all matters relating to business aviation and provides the following services:

- Private or commercial aircraft operations worldwide and passenger logistics
- Full compliance with all applicable civil aviation regulations
- Maintenance supervision on your aircraft, and review, filing and safekeeping of all technical records in compliance with the applicable regulations
- Crew selection, employment and training
- Aircraft insurance
- Transparent accounting
- Customised advice for any aviation-related questions

We work hard to represent and protect the interests entrusted to us. Being free from any constraining partnership with manufacturers and maintenance centres, we guarantee our customers total impartiality and full financial transparency.

SALES AND ACQUISITIONS

Albinati Aeronautics has founded a new company: **JETRON SWITZERLAND SA,** fully qualified to guide and advise our customers through the entire process of acquiring or selling their business aircraft.

You will benefit from our expertise including a preliminary market analysis, the identification of the aircraft that best suits your needs, in-depth negotiations, technical evaluation, monitoring and verification of compliance with all applicable standards by our in-house engineers before the deal is closed on a new or used aircraft.

We can also help our customers obtain financing and provide them with the benefit of our legal and fiscal network of experts related to corporate structures.

PRIVATE JET CHARTER

Our Company holds both a Swiss and a Maltese Operator Certificate and has a comprehensive fleet of over 20 aircraft under management.

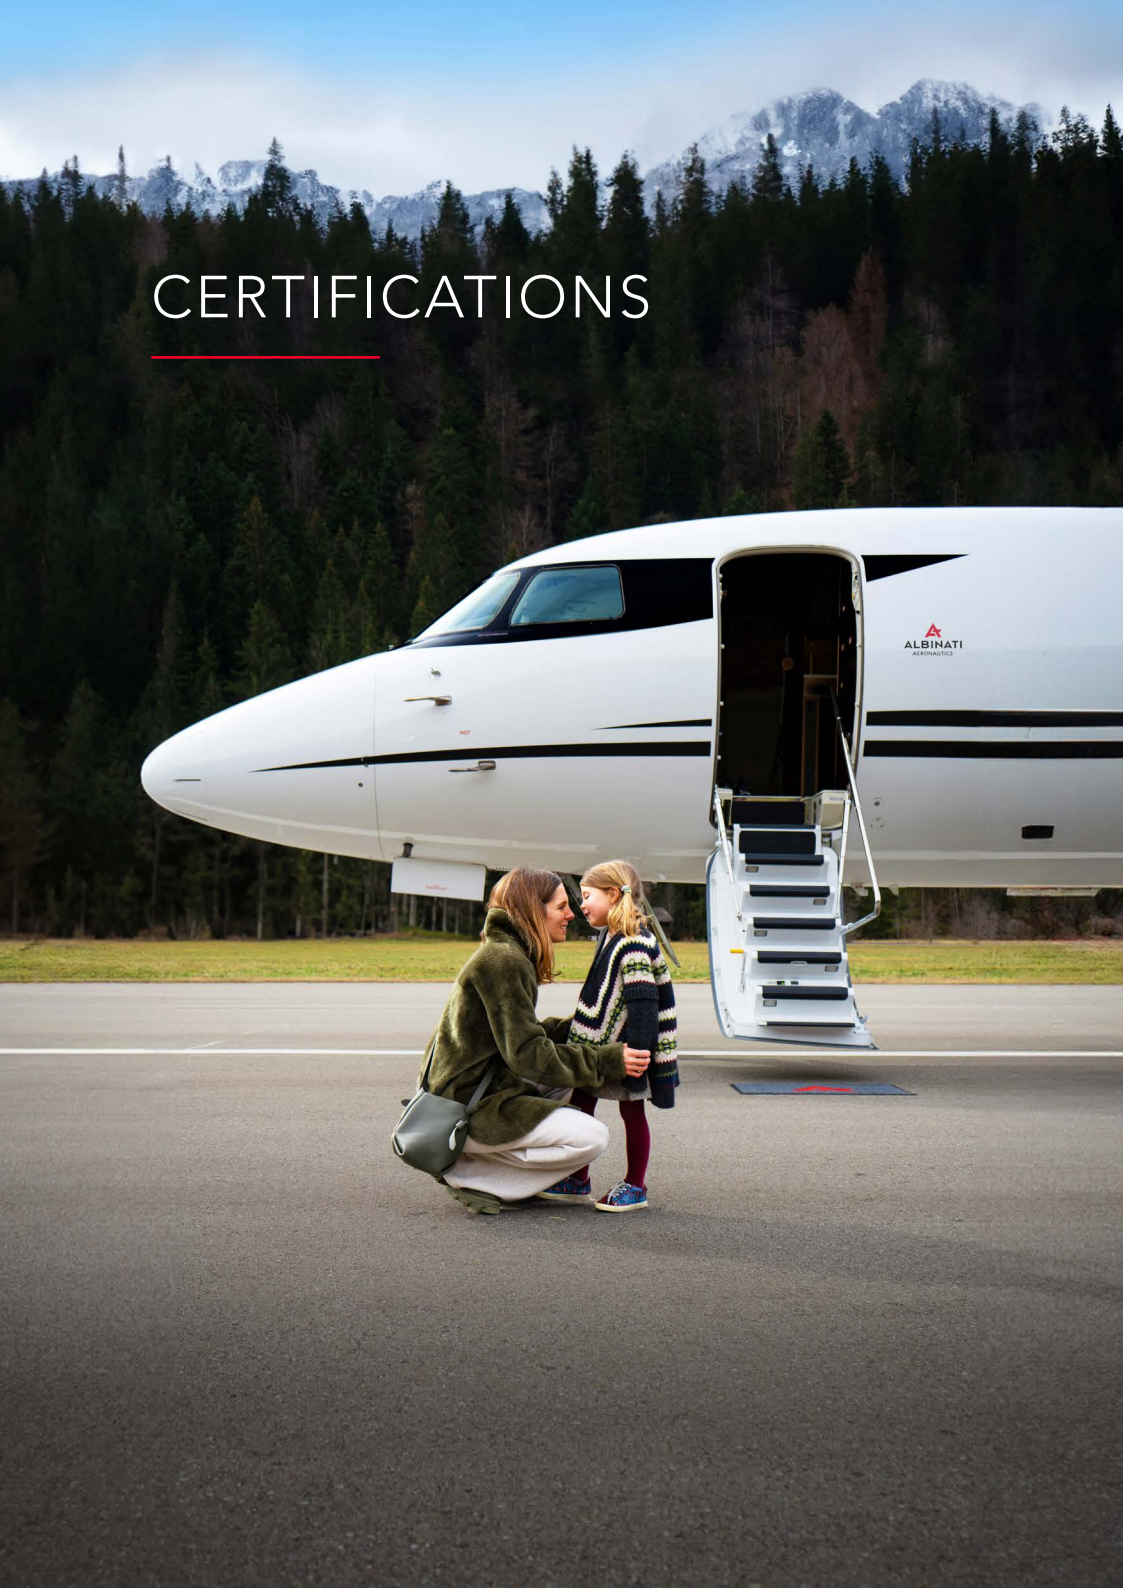

Our Charter Sales, Customer Service and Operations teams are available around the clock, every day of the year, to organise and coordinate our customers flights and fulfil their logistical requirements. We will take you as close as possible to your final destination anywhere in the world.

We are:

- A certified CAT II operator; this allows greater landing possibilities in adverse weather conditions
- An approved USA Visa Waiver operator - authorised to carry non-immigrant visitors without an entry visa for the US
- A licensed Far Part 129 and Canadian Foreign Air Operator, thus entitled to perform business jet charter services to and from those countries
- Certified to land at London City and Saint-Tropez - La Môle airports

Reservation of leisure or business trips is simple and fast and you can rest assured at all times of complete confidentiality, maximum safety and outstanding quality.
